RE: Community Preservation Committee
Second Round CPA Project Funding Recommendations

Dear President Guanci and Members of the City Council,

The Community Preservation Committee (CPC) has received, reviewed and herein makes funding recommendations for the second round of project applications for the Community Preservation Act funding. The CPC, with the valuable assistance from the City Finance and Planning Departments, has worked to perform its due diligence in evaluating this second round of applications and is pleased to submit the enclosed recommendations.

All recommended projects are subject to the terms and conditions imposed by the Community Preservation Committee through anticipated Grant Agreements or Memorandums of Understanding. The following conditions are common to all recommended projects:

1. Projects financed with Community Preservation Act funds must comply with all applicable State and municipal requirements. CPA funds are administered and disbursed by the City of Beverly.
2. Project oversight, monitoring, and financial control are the responsibility of the CPC or its designee, or as required in project Memorandums of Understanding/Agreement
3. The CPC will require quarterly project status updates from Community Preservation Act Fund recipients. Additionally, recipients shall also provide an interim report at the 50% Completion Stage along with budget documentation.
4. All projects will be required to state "*This project received funding assistance from the citizens of Beverly through the Community Preservation Act*" in their promotional material and, where appropriate, on exterior signage.

Applications for all projects are available for review in the Planning Department office, or on the CPC's website. Should you have any questions or need additional information, please do not hesitate to contact the Committee through its staff, Amy Maxner in the Planning Department.
